How to open facebook account without confirm identity

To fix "Please Confirm Your Identity" on Facebook, you need to take and upload a photo of your ID. Then, enter an email address that is not linked to your Facebook account. Lastly, Facebook will send you a link to regain access to your account. Tap on the link to regain access to your account. The "Please Confirm Your Identity" error is faced by many Facebook users. Here's the full error message, "Recent activity may have affected your account's security, so we've locked it". Followed by, "We'll walk you through a few steps to confirm your identity and help you access your account". This includes choosing a security check, doing a security check, and reviewing your recent login attempts. Here's how to fix "Please Confirm Your Identity" on Facebook: 1. Tap on "Continue" Firstly, open the Facebook app and log in to your account. Once you're logged in, you'll see the "Please Confirm Your Identity" error message. There are 3 parts to confirm your identity. Firstly, you need to choose a security check. Secondly, you need to do a security check. Lastly, you need to review your recent login attempts. Tap on "Continue" to proceed to the next step. 2. Select "Approve your login on another phone or computer" After you've tapped on "Continue", you'll land on the "Choose a security check" page. On this page, you need to choose a security check. You can try each option multiple times. There are a couple of options that you can choose from. This includes "Approve your login on another phone or computer" and "Get a code sent to your phone". Select "Approve your login on another phone or computer" and tap on "Continue". 3. Tap on "Confirm identity in another way" After you've selected "Approve your login on another phone or computer", you'll see a list of devices that you've logged into Facebook on. To approve your login, you need to have access to one of the devices that are listed. Then, select the device and approve your login on it. If you don't have access to any of the devices that are listed, tap on "Confirm identity in another way" at the bottom of the page. 4. Select "Get a code sent to your phone" After you've tapped on "Confirm identity in another way", you'll land on the "Choose a security check" page again. The page contains the same two options. This includes "Approve your login on another phone or computer" and "Get a code sent to your phone". Now, you need to select the "Get a code sent to your phone" option. Then, tap on "Continue" to proceed to the next step. 5. Tap on "Confirm identity in another way" After you've selected the "Get a code sent to your phone" option, you'll land on the "Select your phone number" page. On this page, you'll see your phone number if you've linked it to your Facebook account. If you have access to it, select your phone number, tap on "Continue", and follow the on-screen instructions to regain access to your Facebook account. However, if you don't have access to your phone number, tap on "Confirm identity in another way" at the bottom of the page. 6. Select "Upload a photo ID" After you've tapped on "Confirm your identity in another way", you'll land on the "Choose a security check" page again. This time, you'll see an option that allows you to upload a photo ID. Select the "Upload a photo ID" option to upload a photo ID to regain access to your Facebook account. Then, tap on "Continue" to proceed to the next step. 7. Tap on "Continue" After you've selected the "Upload a photo ID" option, you'll land on the "Confirm your identity" page. On this page, you'll see some information about uploading your ID. This includes the type of IDs that you can use and how long your ID will be kept for. Tap on "Continue" to proceed to the next step. 8. Take a photo of your ID After you've tapped on "Continue", you'll land on the page where you can upload your ID. Now, you need to take a photo of your ID. To do so, tap on "Take Photo" and take a photo of your ID. Make sure that the information on the ID is clearly readable before you submit it. Next, check the "I've attached an ID from group one in the Help Center article below" checkbox. Lastly, tap on "Continue" to proceed to the next step. 9. Enter an email address that is not linked After you've uploaded a photo of your ID, you'll land on the "How can we reach you securely" page. On this page, you'll see an email address field. Enter an email address that is not linked to your Facebook account in the email address field. Make sure that only you can log into the email address that you've entered. Tap on "Continue" once you've entered an email address. 10. Tap on "Continue" After you've entered an email address, you'll land on the "Are you sure this email is secure?" page. The page states that anyone who knows the password for your email address may be able to log into your Facebook account. Hence, it's recommended that you change your password. Check the "Only I know the password for your-email@gmail.com" checkbox. Then, tap on "Continue" to proceed to the next step. 11. Tap on "Ok" After you've confirmed that your email address is secure, you'll land on the "Thank You" page. Here's what the description on the page says, "We'll get in touch with you at the email address you provided after we've reviewed what you sent us". Followed by, "To maintain the security of your account, you'll now be logged out of Facebook". Tap on "Ok" to log out of your Facebook account. Now, you need to wait for Facebook's response. Facebook will send you a recovery link to the email address that you've provided in the 9th step. 12. Check your email for the recovery link After a few hours, Facebook will send you a recovery link to the email address that you've provided in the 9th step. Check your email after a few hours for the recovery link. If you didn't receive any email from Facebook, you need to wait for a longer period of time. Make sure to check your junk and spam folder as well. In the email, you'll see a link to regain access to your Facebook account. Tap on the link to regain access to your Facebook account. 13. Tap on "Continue" After you've tapped on the recovery link that is sent to your email, you'll land on the "You're all set" page on Facebook. This means that you've finished the account recovery process. Facebook will now let you know if they see anything suspicious. Tap on "Continue" to continue to your Facebook account. 14. You've successfully recovered your Facebook account After you've tapped on "Continue", you'll be automatically logged into your Facebook account. You've successfully recovered your Facebook account! If you're still having trouble with regaining access to your Facebook account even after following the steps, you need to contact Facebook support. To do so, you need to buy an ad on Facebook. After you've bought an ad on Facebook, wait for 3 days and visit the Facebook business support website. On the page, you'll see a contact button. Tap on the contact button and follow the on-screen instructions to contact Facebook support. Keep in mind that the contact button will only appear if you've bought an ad on Facebook. Conclusion You probably got the "Please Confirm Your Identity" error on Facebook because you're using a third-party app or tool. It could also mean that Facebook has detected that your account has been compromised. After you've regained access to your Facebook account, you need to sign out and uninstall any third-party app or tool that you're using. This will prevent your account from getting locked again. In some cases, you might get the "Please Confirm Your Identity" error by mistake. Even so, you need to follow the steps in the guide above to fix it. Further reading How to Fix Instagram Video Selfie Verification Error How to Fix "Confirm Your Info on the App" on Instagram What Does "Following" Mean on Facebook? This is the main reason why you are here and you will get the solutions and ideas to unlock and fix your blocked or disabled Facebook account without ID proof. Read: How to lock your Facebook Profile Privacy Settings Reasons for Why Your Facebook Account is Disabled/Locked If you do not know why your Facebook is locked. According to Facebook company, they will lock or disable all those accounts that do not follow Facebook community guidelines or Facebook terms and conditions. However, sometimes it may be miss understanding or malfunctioning of the social media platform too. Anyways, let's show you the main reason behind disability or locking your Facebook account. Some unusual login attempt or Login issues You were using a fake account name or username You may have uploading or posting, links, posts, or some other content that again the Facebook Terms and conditions Tried to prevent someone or impersonating someone You disabled your account temporarily and trying too long with a password you do not remember You have chat or behavior with someone that is not allowed on Facebook and that is a violation of Facebook Community Standards Promoting, advertising, harassment, or other conduct that is not allowed on Facebook or Messenger Reporting anyone else authentic Facebook account Using fake pictures Doing not habitually or unusually Using Facebook Two Factor Authentication and you have an issue with the Facebook 2FA confirmation code If someone may have tried to gain access to your Facebook, so Facebook needs you to verify first your ident who you say you are. Typically somebody will report and flag you for this activity. If you posted too many messages on group in a very short time then it will be considered a spam You are under 18 year old You may have crossed friend-requested from Facebook's friends policy, so this may casue should be a rarity. Here are above some of the reasons that can cause of locked your Facebook account. However, some of the users are looking for the solutions of How can I unlock my Facebook account without ID proof, then continue to read the below some of the solution can help you fix it. In case you have ever done something against Facebook Term and conditions or Community Standards then do not waste your time and create a new Facebook or sign up for a new Facebook account. But if you have done something that again Facebook terms or it was a mistake. Then you can submit appear this way to confirm your identity without a government ID card etc. Let's show you how to unlock or unblock your Facebook locked or disabled account without ID proof. Open Facebook Help and page get to the disabled account page. Now select the Use this form to request a review option. Enter your name, subject, phone number, login email address, Account ID, and upload five screenshots of your account. Write a comment to Facebook and shortly describe the problem you are having. In the last step, Click on the Send button and that is it. Then upload those photos you have used in your Facebook account before. After that, Facebook will then try to check your FB account for that image and compare or match them with the one you have uploaded. If all the things go nice, then within one or two weeks you will get an email from Facebook to reset your password for your FB account. Go to your email and click on the link to type your new password and enjoy your Facebook again. So this is how you unlock, reactivate, unblock your disabled Facebook account without ID proof. Unlock Your Disabled Facebook Account Moreover, this keeps in mind that, in case you do not follow the above instruction or steps for more than thirty days, then Facebook will permanently block or disable your account and remove or delete it from their database. Thus do not follow the above-given instructions if you have been disabled for more than 30 days. Read: Deactivate/Delete Permanently Facebook Account The Alternative Way to Recover Disabled Facebook Account This is possible if you have added some of the trusted contacts to your Facebook account. You will get help from them and recover or unblock your Facebook account in a few steps. Here let's begin with the below ways how to do it. Open any browser and go to the facebook.com Click on the forgot account button Then visit to find your account web page Here enter your phone number or email address and password Click on the Account from the list and select continue Now send OTP to their phone number or email address Then ask the contact and ask them to enter the OTP once Facebook asks for it When the OTP is confirmed then Facebook will unlock or reactivate or unblock your disabled account Another way to Unblock Disabled Facebook Account In case you think that nothing is working to recover or unblock your blocked Facebook account. But you will need to keep in mind the following things like your Facebook username, the complete or full name of your account, and link to your Facebook profile. Let's get started to do it: Request your friend to report a problem with Facebook. In the description type to enter your full name, username, email, and alike to your Facebook profile. Facebook may try to contact you by email on the email address have attached to your Facebook account and may ask you for information they need to unblock or reactivate your Facebook account. You can also try to remove or clear your mobile app or browser cache files. Maybe it will unlock your Facebook account and you do not know how it is done. Due to your web browser is using and showing you data files from the cache files. Thus remove your browser cache file or data and then try to sign in to your account and check if everything is fine and working. Read: How to Recover Facebook Password without Phone & Email FAQs: Unlock Disabled Facebook Account Without ID Proof Here are some of the frequently asked questions by various people against recovering or unblocking your disabled Facebook account. And might you be interested to read it. How Can You Reactivate Your Locked Facebook Account In case you are disabled from your Facebook account, you may have the option to reactivate or reset your login info in one of these two ways. Replying to Your Security Questions: Simply follow the prompts on the screen and reply to the questions to prove your identity you are who you say you are. Getting Help From Friends: Select one of your friends on Facebook who you trust, and provide them with the designated URL which they require to visit to get a security code. When you have that code, you will need to enter it where prompted on screen. What is the time it takes for Facebook to verify your identity? If you would want to know how much time it takes Facebook to verify your ID after you submit the request form, you can get the answers from the points mentioned below. There is no set timeline by Facebook in which you can expect to get a response from identity verification; it could take a little as 48 hrs or as long as 45 days or more. In case your request for verifying your page of profile on Facebook got rejected, you must not lose all the hope is you can re-submit for the same in 30 days by containing any extra details that you feel will support you in your application. Furthermore, you can get more support from Facebook by contacting their customer service center for any extra assistance that you need. What will happens if you don't confirm your ID on Facebook? If sometimes you get a notification from Facebook still need to confirm your identity and you did not. Then it is an indication of very serious trouble or problem. For sure, your Facebook account will be banned permanently. After that, there will be no way to help you get your blocked account back unlock. Simply, you will lose your FB account in case you do not confirm your identity on Facebook. So keep in mind these things and be very careful with that. How to unlock Facebook account without ID proof 2022 To Unlock your disabled Facebook Account Without ID Proof or Identity verification. Go to the Facebook Help and page get to the blocked accounts page. Now select the "use this form to request a review" option. Type your sign-in email address or phone number. Then type to enter your full name on the Facebook account you are using. How to unlock Facebook account without verification If you want to unlock a Facebook account without a verification identity. Go to Facebook.com and select the forgot account option then visit to find your account page. Here type to enter your email address or phone number and password. Select the account from the list and continue. Click to send the OTP to their phone number or email address, ask them and enter the OTP once Facebook asks for it. Can I Skip ID verification on Facebook? In short answer yes, you can skip the ID verification on your Facebook account. There are many methods to do it. But the very simple way is to use a proxy website. But we will never recommend you to walk through this way. The reason is that it may leak your Facebook account username and password. And someone will get access to your Facebook account and delete all the things that can help you to get unlock or get your FB account back. Besides that an alternative and secure method are to skip identity verification on Facebook is to report your Facebook as a compromised one. Facebook will understand that anyone else has hacked or access to your account and may help get back your Facebook account without ID verification or identity proof. Read More:
